Mr. Curt Schmutte, Chief  
Flood Protection and Geographic Information Branch  
Department of Water Resources  
3251 S Street  
Sacramento, CA 95816-7017

Dear Curt:

Your Category III ecosystem restoration proposal, *Evaluation and Demonstration of Techniques for Reversing the Effects of Subsidence in the Sacramento-San Joaquin Delta*, has been approved for funding in the amount of \$3,583,000. The revised workplan was reviewed and approved by the Integration Panel, Ecosystem Roundtable, Management Team, and Policy Group.

The revised workplan has been funded with the exception of Subtask 3e and Task 4. While we feel that these are valuable tasks, it has been determined that deletion of these items will not compromise the proposal at this time. However, we encourage you to resubmit this portion of the proposal during future CALFED funding solicitations.

I am in receipt of your final scope of work, and will shortly be forwarding a draft Interagency Agreement for your review. In the meantime, please submit the Memorandum of Understanding which has been signed by the parties involved in this project.

If you have any questions, I can be reached at (916) 653-3790.

Sincerely,

*Wendy Wyels*
